Electric Technology  
Co., Ltd**

# COMPANY PROFILE

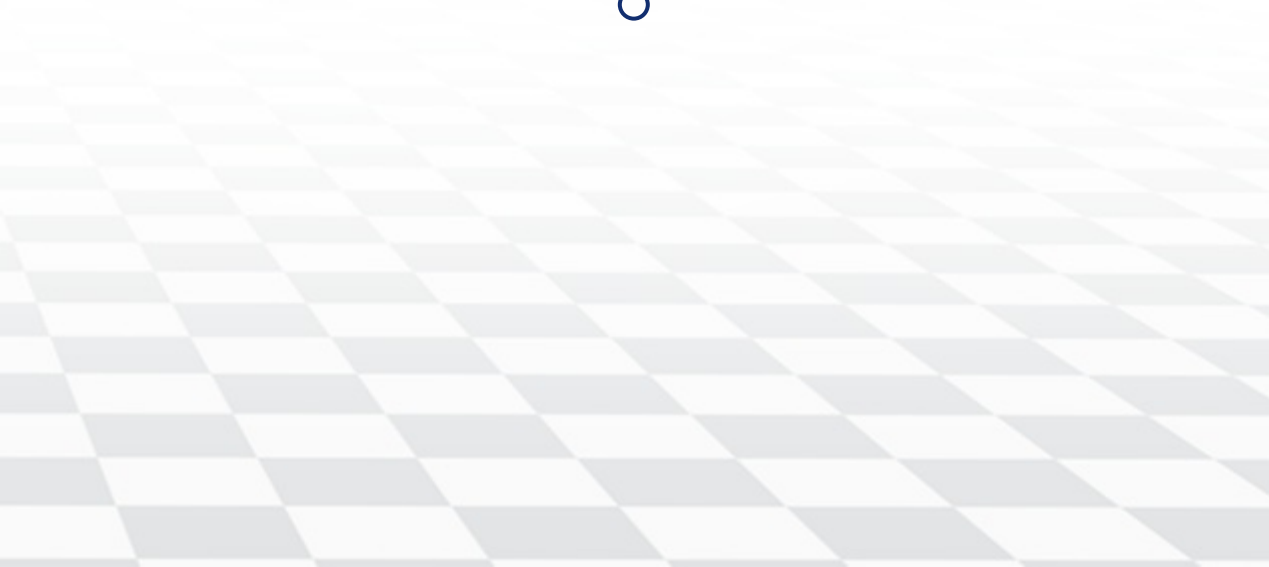

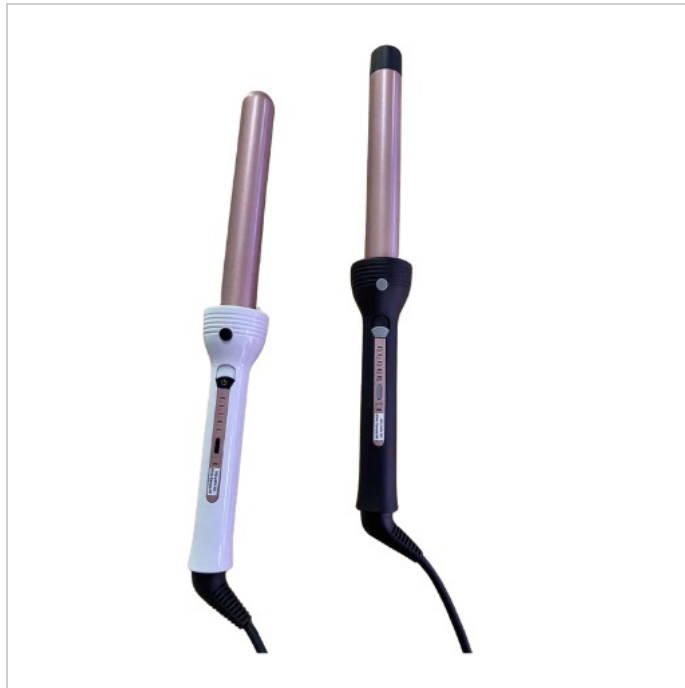

Dongguan XiaoTi Electric Technology Co., Ltd is a manufacturer focusing on design, solution and manufacturing of hair clippers, lint removers, hair straighteners, curling irons, hair straightener brushes, and hairdryers.

We have an engineering team served for Remington, Philips, Babyliss, Corioliss since 1995, every our product are carefully designed with big brands standard so that customer can easily tell the difference if have a close look. In addition they are in stable quality and cost-effective, as our founder worked in the same industry as a manufacturer leader since 2001, we have deeply understanding about materials, costs, and quality standard.

"Business is all about people. ". XiaoTi founded on the aim both for the customers and end consumers. And a nice product is a bridge necessary to meet the desire of the market. That's where we take the main strength in and take good care of each stop and every spot.

From design to mass production, we have successfully cooperated with the big brands. In the 1st year of establishing, DAEWOO chose us as their supplier for design and manufacturing. The same year, our product was recommended on IFA, Berlin, Germany. In the 2nd year, the product we designed for local brand becomes the No.1 in Japanese Amazon. And now, more and more brands and salons choose XiaoTi...

## Product Detail

- Ceramic coating barrel
- Comfortable anti-slip handle
- PTC heater, fast heat up, and high-temperature performance
- Dual voltage (110V-240V)
- 360° swivel power cord for convenient use
- Different barrels in one set or single
- Tiny stand hide behind
- Special design for easy changing of barrel

## XT-121

## Product Detail

Electric step-less temperature regulation for precise setting to 230 Celsius degree.

Dual voltage

Temperature from 100C to 230C

1 hour auto shut off

360 swivel cord

**XT-123**

## Product Detail

Automatic rotating crimping iron

Input: DC5V 2A MAX.

Lithium battery (21700) 3.7Vdc 4500mAh

USB charging line

About 3 hours to be full of electricity, available for 40minutes@180°C.

LCD indicator

Adjustable temperature:160 , 180 , 200°C

The setting time after curling can be adjusted: 6 , 8 , 10 , 12 , 14S Conversion between degrees Celsius and degrees Fahrenheit

The left and right keys can rotate automatically.

## XT-201

## Product Detail

LCD display

360 Swivel power cord

The temperature range 100-230°C

Input 100-240V 50/60Hz

1 hour automatic shut off after not using

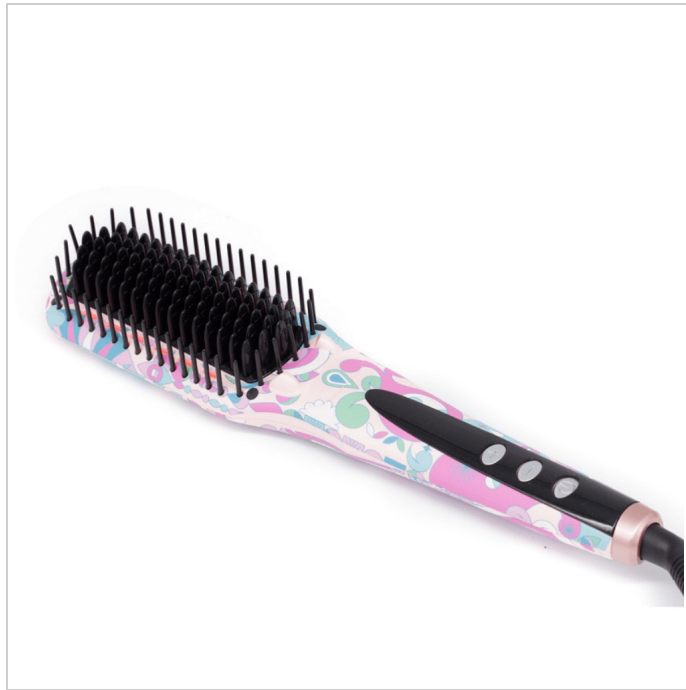

Professional PTC heater, heating fast

ø=25mm size Al-barrel

Locking design for the housing

The rubber design for not pulling hair in the AL-barrel Option ø=28mm / 32mm size Al-barrel

**XT-202**

### Product Detail

Superfast ceramic heating elements ensure a rapid heat up

Infrared and Korean negative-ion technology

Universal round the world global voltage (100-240V)

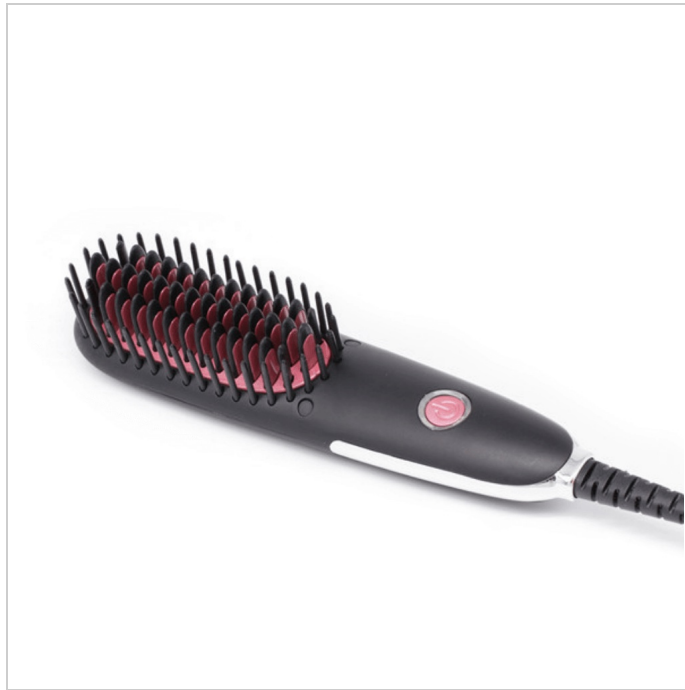

Led display, adjustable temperature from 80 to 230 degree Celsius

Professional 3 meters 360-degree swivel cord

Rubber soft-touch finish, luxury looking and comfortable operation

Slim and ergonomic design for easy use

**XT-158**

### Product Detail

- Superfast ceramic heating elements
- Infrared and Korean negative-ion technology
- Universal round the world global voltage (100-240V)
- Adjustable temperature
- Professional 3 meters 360-degree swivel cord
- Slim and ergonomic design for easy use

### XT-160

## Product Detail

Rated voltage : 5V

Motor: Fast&strong motor

Super low working noise

USB Recharge

Power : 6.8W

Charge voltage : 5.0V

Charge current : 1000mA

**XT-180**

## Product Detail

Battery: Pro lithium-ion battery 2600MAH

Working time 180mins

Rated voltage : 5V

Motor: Fast&strong motor 9800rpm

Super low working noise

Power : 6.8W

Charge voltage : 5.0V

charge current : 1000mA

## XT-183

## Product Detail

Japan 440C Self-sharpening blade with hardness of 61-63HRC

2600mAh Pure Ternary Lithium Battery (80% capacity left after 400 times recycle)

9000RPM Panasonic DC Motor

Below 65dB working in the environment of 45dB

Working temperature below 50°C

Blades gap for any cutting length from 0.2 to 2mm

5 magnetic combs set: 1/16" , 1/8" , 1/4" , 3/8" , 1/2"

Over charge/discharge protection, over current protection, short circuit protection.

75 mins full of electricity for 240 mins working time

**XT-286**

## Product Detail

Japan 440C blade with hardness 61-63HRC

18650 ternary lithium battery, 80% capacity left after 400 times recycle

75 mins to be full of electricity, available for 2 hours working

Magnetic motor 9000RPM

Adjustable taper level with 5-detent positions for easy adjustment to the cutting length

5 sizes magnetic comb set 1/16" ,1/8" ,1/4" , 3/8" , 1/2"

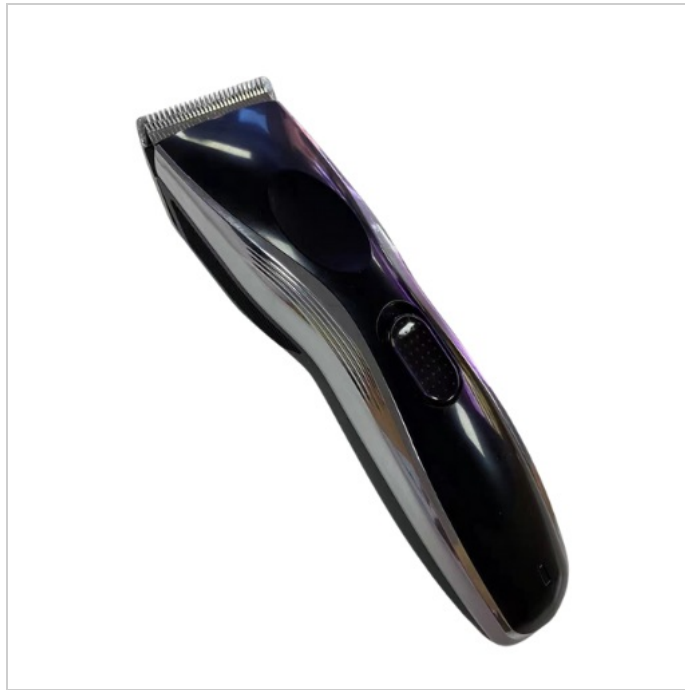

LCD indicator for charge

55dB under the environment of 45dB

Working temperature below 50°C

Magnetic suspension Technology

**XT-287**

### Product Detail

Blade made of high carbon steel with hardness of 56-58HRC. With Self-sharpening function.  
Blades distance can be adjusted with 3 levels.

Working noise is below 55 dB.

2000mAh pure ternary lithium battery.

120 min full of electricity and available for 150 min working time.

Dual voltage and Power is only 5 Watt.

9000 RPM high-speed motor provides super motivation.

Cutting force is enough for dia 10mm human hair smoothly.

**XT-288**

## Product Detail

BLCD Motor

220-240V/ 2000-220W or 125V 1875W

Cool shot switch

2 Speed settings and 3 heating settings  
with LED indicator

Ionic function

Option : diffusor

Wave heater

Professional design

**XT-210**

### Product Detail

Ionic Infrared technology  
AC Motor Power : 1800W-2200W  
Impact and high-temperature resistant plastic case  
3 speed/heat settings customized injection color  
High distinguish and wearable silk screen logo  
Leakage protection switch  
Magnetic gift box with black flocking blister  
2.4 M swivel cord

**XT-216**

### Product Detail

flat iron can straight or curl  
flexible in size so that it's easy for travel  
Auto shut off after 1 hour continuous working  
Dual Voltage  
Cordless design

**XT-132**

## Product Detail

With protecting shield mini hair Straightener

Input: DC5V 2A MAX.

Lithium battery (21700) 3.7Vdc 4500mAh

USB charging line

About 90 minutes to be full of electricity, available for 72 minutes@180°C.

LED indicator

Adjustable temperature:160 , 180 , 200°C

20.5mm width plate spray ceramic + ion

## XT-172

## Product Detail

High-quality PTC heater system for fast heating

Led display, adjustable temperature from 80 to 230 degree Celsius  
Built-in ion generator, solid or ceramic coating plates

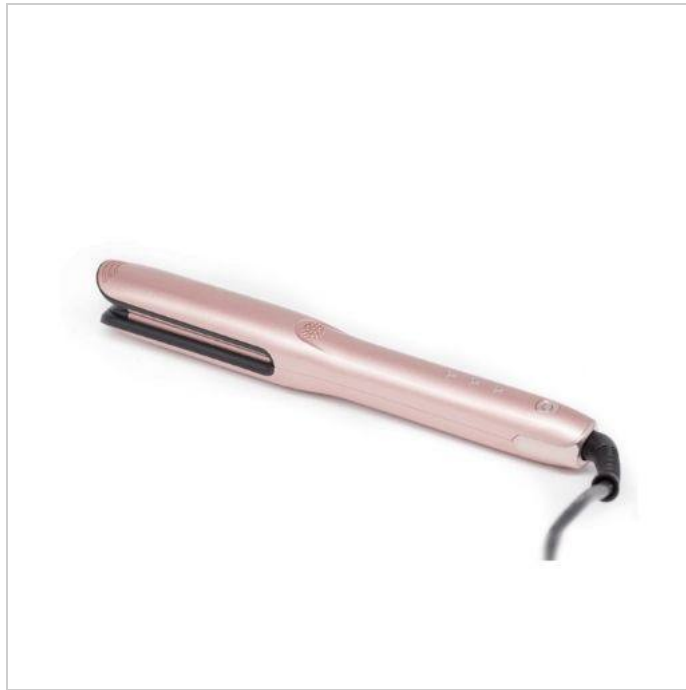

360° electrical swivel cord never tangles

Wide titanium plates wet to dry hair flat iron for thick hair, and quickly styling

Ozone function makes hair smooth, clear, and shiny

IC circuit controls

**XT-174**

### Product Detail

Enhanced material, heat resistant to 230 °C

Customized injection color

1" 100% ceramic plates with tourmaline

Good floating performance

High distinguish and wearable silk screen logo handle/ round cap

110V-240V/ 60Hz

Temperature adjust range 180 °C to 230 °C or customized

Swivel cord

**XT-175**

## Product Detail

LCD display for temperature

Enhanced material, heat resistant to 230 °C

Customized gloss color

Shinning titanium plates

Good floating performance High distinguish and wearable silk screen logo handle/ round cap

110V-240V/ 60Hz

Temperature adjust range 180 °C to 230 °C or customized

Swivel cord

**XT-176**

## Product Detail

- Touch Screen technology
- Temperature lock function
- Enhanced material, heat resistant to 230 °C/450°F
- Customized gloss color
- Shinning titanium plates
- Good floating performance
- High distinguish and wearable silk screen logo handle/ round cap
- 110V-240V/60Hz
- Temperature adjust range 180 °C to 230 °C or customized
- Swivel cord

**XT-177**

## Product Detail

Input: DC5V 1A MAX.

Lithium battery (18650) 3.7Vdc 2000mAh

USB charging line

About 2 hours to be full of electricity, available for 180minutes LED indicator

2-speed settings and detachable handle

Safe switch design for removing the front cover

Front and rear cover using magnet design, For disassembling or assembling is easy

Protection against water: IXP5

Power : 2W

## XT-188

Lint Remover

## Product Detail

- 6 slices blade for more rapid shaving
- 5 hours long working time
- Thicknet metal mask protects clothes
- Enough storage for 10 pcs cloth shaving without times of cleaning
- Rapidly auto Tstop if metal mask loosened
- 3 speeds adjustable for different clothes
- USB Rechargeable
- Brush inside the body no worries for lost

## XT-189

Lint Remover

## Product Detail

Battery: Pro lithium-ion battery 2600MAH

Working time 240mins

Rated voltage : 3.7V

Motor: Fast&strong motor 6800rpm

USB Recharge

Protection against water: IXP5

Power : 2W

Charge voltage : 5.0V

Charge current : 1000mA

## XT-196
